

The logo for BAMI (Benchmarking and Assessment for Multiple Imputation) features the acronym 'BAMI' in a large, bold, sans-serif font. The letters are a light gray color. To the right of the text is a stylized line graph with five data points connected by lines. The graph starts at a low point, rises to a peak, falls to a trough, rises to a higher peak, and then falls. The lines and dots are in various shades of gray. The entire logo is framed by two horizontal lines, one at the top and one at the bottom, which are also in a light gray color.
